

Reading Response Book

This is your Reading Response Book. It is your chance to show off how much you love to read and all your favourite books.

Each night when you read at home to someone, get them to write it in this book. It works like a reading diary. The extra special thing about this book though is that you can write about the books you read, you can draw pictures of the characters or even stick in photos or pictures that have a connection with the books you are reading.

To start with, an adult will probably do the reading for you, but can ask you lots of questions about the book and write down one of your responses.

Maybe.....

- Did you like this book? Why?
- Which is your favourite page in the book
- What do you think happens next?

Make sure you have your Reading Response book with you each day, especially on a Thursday when we count up the reads and award points. All points lead to certificates and with 100 points you get to choose your very own book to keep from the 'wormery' completely free!

So get sharing a book each night at home and make sure an adult writes it down. Let's see how many points for reading you can get.
