STEM project (Science, Technology, Engineering and Maths)

As part of our work on future career opportunities, Shipley School has joined the Primary Engineer Programme <https://www.primaryengineer.com/>

After Easter, children will be researching, designing, making, problem-solving, testing and evaluating moving vehicles. We have a link with an engineer at Gatwick Airport, as well as James, our RAF engineer, who will be supporting us with this project.

Can you help? We need SHOE BOXES, preferably with a detachable lid.

Ash and Sycamores local walk

The walk to the Shipley Auxiliary Units Zero Station will take place on Thursday 25th March in the morning. Children will need to wear wellies or walking boots. We are really interested in the history and secrecy surrounding this WW2 radio bunker and it will be the focus of our diary writing next week. If anyone has any further knowledge, please get in touch with us.

Parent consultation appointments

Thank you to everyone who has made an appointment for the parents' consultations over the next couple of weeks. They will all be held on Zoom and the link will be sent to you on the morning of your appointment.

After School Clubs

The clubs will start on Monday 19th April. The form has gone out in bags - please return your slip on Monday to avoid disappointment.

School Website

The class pages are updated every Monday with details of support for the children's learning at home with reading, spelling, times tables and topic tasks.

There are activities available on the class pages of the website

Oaks <https://www.shipleyceprimary.com/oaks-class.html>
