

PUPIL PREMIUM STATEMENT

Report 2018- 2021

The Pupil Premium is allocated to children who are known to be eligible for Free School Meals (FSM), to Service Children and to children who have been looked after continuously for more than six months. This will also include pupils eligible for FSM at any point in the last six years (known as the Ever 6 FSM measure).

Shipleigh School uses the funding in a variety of ways to improve pupil attainment and help ensure children reach their full potential, both academically and socially.

Some of the main barriers to pupil premium children compared to non-pupil premium pupils are:

Social and emotional - some pupils require support and nurture

Behaviour and achievement – some pupils have low expectations of behaviour or attainment

Language – access to quality language experiences including talk, reading and books and writing opportunities

Access to extra-curricular activities and extended schools – before and after school child care and educational experiences such as trips, clubs and physical activities

Parental engagement with school – ensuring parents engage with the school, including parent workshop events, home learning and parents' evenings

Attendance – a few pupils have lower rates of attendance or have gaps in their attendance

Pupil premium children may also fall into another vulnerable category, eg. SEND, GRT

How we measure impact of spending:

- Pupil Premium pupils have a Provision map and are tracked in attendance, achievement and academic progress.
- Teaching staff are able to identify and plan for the needs of Pupil premium children.
- At least termly scrutiny of children's work and other evidence triangulates the progress they are making.
- Interventions and impact of these are reviewed regularly as part of the pupil progress review.
- The level of parental engagement is monitored to ensure the partnership is effective and supports the child to achieve both academically and socially
- Governors receive regular updates on progress of pupil premium children and the impact of the PPG funding.
