

The Lighthouse Keeper's Lunch

by Ronda and David Armitage

English & DT Home Learning

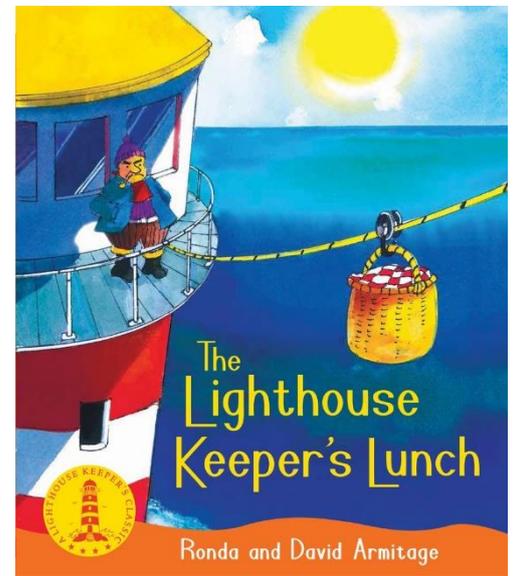

for Week 4 - Summer Term - 11-05-20

This week we are going to use the book to carry on helping us write a postcard to the seagulls.

<https://www.youtube.com/watch?v=46wCRq50Wwg>

Follow the class link for the Reading Comprehension -

<http://www.shipleyceprimary.com/oaks-class.html>

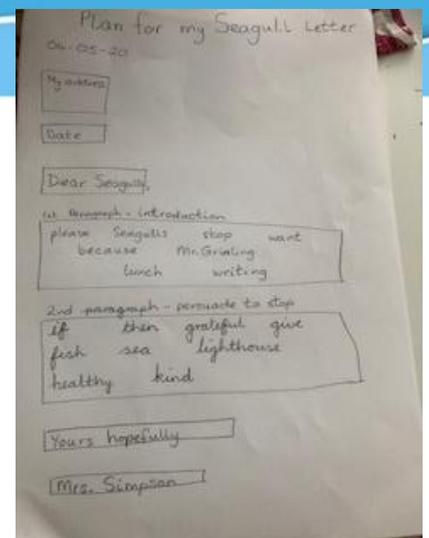

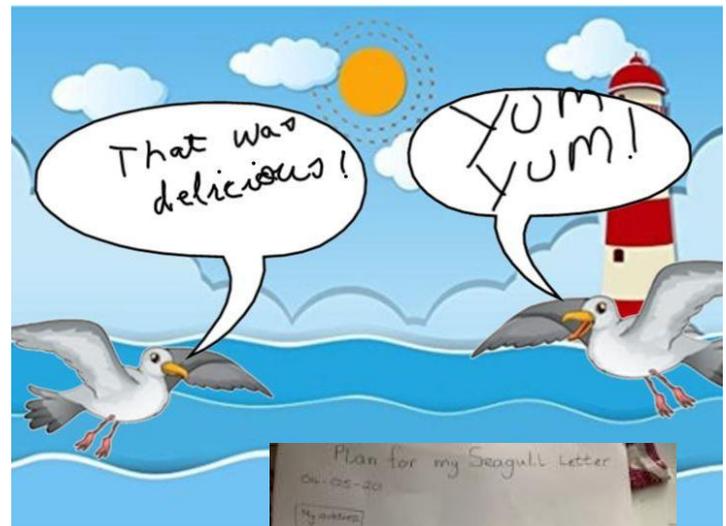

- Postcard Writing for Everyone-
- use the class page link to find a powerpoint about how to write your postcard
- <http://www.shipleyceprimary.com/oaks-class.html>

The powerpoint takes you through the stages of writing a postcard. As Mr. Grinling lives by the sea and lots of you will have been holiday at the seaside, I thought it might be nice to send the seagulls a postcard instead of a letter.

You can have fun drawing a picture on one side of your postcard. Use your plan from last week to help you with some of the words for your postcard.

It won't be set out quite the same as the letter but the powerpoint shows you step by step what to do. You could put the school address on and send it in to school and I can make a display with the postcards, that would be fun and just what we would have done if we were doing it at school.

Keep your plan for Marcel's letter, that is what we will be doing next week. It will be the last task with The Lighthouse Keeper's Lunch.

Here is my plan for my Marcel letter, this one was a bit more tricky, so you might need some more help. If the writing is tricky try typing it. Mrs. Upstone would be very proud to see you using your computing skills. You can see that's what I did for a change.

My address

Date

Dear Marcel,

Thank you design tricky
pleased lighthouse picture hope
like

As you can see, tall bright
light different
important build
shapes best
because straight round
doors windows
tried model show

I hope you liked my designs and chose one of them for your new lighthouse.

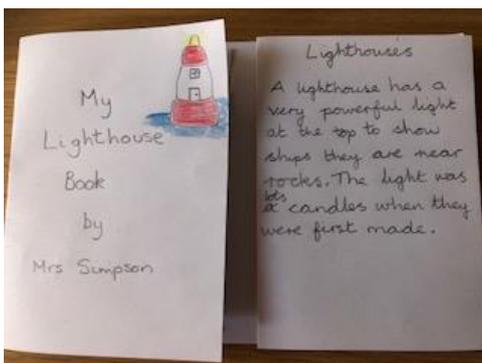

Design Task - you should have finished these now, which one is your favourite? Send in a picture so I can add them to the display.

Use this link to watch a cartoon about lighthouses. How they look outside and in, also how they work.

<https://www.youtube.com/watch?v=6vLja4hpeSk>

- Design some lighthouses for Marcel, have fun with them, make them interesting and different, making sure you remember what they need to have. You could do some research using the links on our class page, and find out about different types of lighthouses. Use your maths knowledge about shapes to help you with your designs.

Here are some I had a go at. As always, yours will be much better than mine!

- Fold a piece of paper and make a booklet. Make a front cover with a title and picture. Inside write what you find out about lighthouses and around your design you could say what you think the builder should use to make it. What materials should they use?

- Use some packaging to make a model of your favourite design. Take a photo of it or draw a picture of it and include it in your booklet. Say why you think it is your favourite. This is the start of mine.
